

CH-2190-ARPC

Camilla hidráulica multifuncional de osteopatía de 9 secciones con respaldo reclinable en negativo. Incluye reposabrazos a la altura del respaldo regulables en altura y anchura, con brazos planos tapizados giratorios, pliegue central, posición Trendelenburg con rulos tope en hombros, tapón facial y ruedas

| Características generales |  |
|---------------------------|--|
| Tipo de cabezal           | Cabezal con agujero y tapón facial                                   |
| Tipo de respaldo          | Proclive/declive en negativo   |
| Brazos                    | Brazos planos tapizados giratorios                                   |
|                           | Reposabrazos a la altura del respaldo regulables en altura y anchura |
| Piernas                   | Piecera (tercer cuerpo) elevable/reclinable                          |
| Otros extras incluidos    | Agujero facial   |
|                           | Rulo tope para Trendelenburg   |
|                           | Tapón facial   |
| Posiciones especiales     | Trendelenburg  |
| Normativas y seguridad    | El motor/motores cumplen con las normativas de seguridad europeas    |
|                           | PRODUCTO CE Fabricado en España                                      |

| Estructura y chasis |  |
|---------------------|--|
| Tipo de estructura  | 2 columnas   |
| Peso soportado      | 180 kg   |
| Material            | Tubo de acero recubierto de polvo epoxi, cocido en horno a 210°C |
| Pintura             | Blanco   |

| Funcionalidades                              |                              |
|--|------------------------------|

| Funcionalidades motorizadas                  | Altura                       |
| Funcionalidades mediante dos pistones de gas | Piecera (tercer cuerpo)      |
|  | Pliegue central              |
|  | Trendelenburg                |
| Funcionalidades mediante pistón de gas       | Respaldo                     |
| Tipo de altura                               | Regulable                    |
| Otros  | Respaldo abatible/reclinable |

| Ruedas            |                                    |
|-------------------|------------------------------------|
| Sistema de ruedas | Escamoteables mediante pedal único |
| Tipo de ruedas    | Ruedas dobles de Ø 50mm            |

Hydraulic multidiscipline couch for osteopathy of 9 sections with a negative adjustment of the backrest. It includes armrests next to the backrest with height and width regulation, upholstered and rotating flat armrests, a central fold, Trendelenburg position with stopping cylinders on the shoulders, a breathing hole plug

| General features             |  |
|------------------------------|--|
| Type of headrest             | Headrest with breathing hole and breathing hole plug           |
| Type of backrest             | Negative pro/declive position                                  |
| Armrests                     | Upholstered and rotating flat armrests                         |
|                              | Armrests next to the backrest with height and width regulation |
| Leg section                  | Adjustable footrest (third section)                            |
| Other extra options included | Breathing hole   |
|                              | Block for the Trendelenburg                                    |
|                              | Breathing hole plug  |
| Special positions            | Trendelenburg  |
| Rules and security           | The engines meet the European safety regulation                |
|                              | CE marking product. Made in Spain                              |

| Frame and chassis |  |
|-------------------|--|
| Type of frame     | 2 columns  |
| Lifting capacity  | 180 kg   |
| Material          | Steel tube coated with an epoxy powder coating and oven-baked at 210°C |
| Paint             | White  |
